At the end of the day, we care about your health. Whether you are a senior with numerous aches and pains, a millennial with feeling anxious and trouble sleeping. If you are a parent that has kiddos with needs, our focus is on providing you with natural solutions, that fit your specific needs – no matter what they are.

Texas Bred CBD has been specially formulated by Matt Fox, a Certified CBD Coach and Certified CBD Business Builder.

Just a little bit about me, Matt Fox, I was **NO DIFFERENT THAN YOU** when I started this adventure into the unknown world of CBD. I had a ton of questions like:

- How does it work?
- Where does it come from?
- What does it do?
- What's it going to do for me?
- Will it get me high?
- Will I fail a drug test?
- Which brand do I use?
- How much does it cost?
- And a host of others...

Growing up I was a multi-sport athlete and an avid motorcycle rider, all of which have brought on numerous injuries including: a broken back, 10 broken ankles, collapsed arch, a shoulder reconstruction and the list goes on.

Yes, I put my parents through the ringer a time or two, to say the least. Nevertheless, I have always been one who refused to take Big Pharma medications and succumb to the side-effects which were overwhelming for me personally, so I dealt with my pains on a daily basis, which put limitations on the activities I truly enjoyed.

Then I was introduced to CBD and wow what a game changer it was for me! I searched high and low, for hours on end, to find the answers to my questions.

I researched 100's of brands, built databases for comparisons and yes, I probably went overboard, but in the end it has brought me to where I am today. I have worked extensively with an FDA Approved manufacturer, to bring a Broad-Spectrum, terpene rich blend of CBD, that helps everyday folks fight pain, inflammation and a host of other needs.

After introducing CBD to my friends and family, including my parents, who are in their late 70's and now some of my biggest advocates, everyone said I needed to help more people.

As of now, I have helped 1000's of people, just like you, live the life they're supposed to live.
